

Amendments to the Specification

Please replace the abstract with the following amended abstract:

Emulsion paint composition for obtaining special textile or suede effect comprising a filler at least partly consisting of pre-pigmented spherical aliphatic polyurethane ~~partieles~~ particles. About 3-10% of the spherical particles has a particle size between 63-90 micrometers and 25-40% of the spherical particles has a particle size between 40-63 micrometers. Before applying the paint as a semi-opaque top coat the substrate is first coated with an opaque acrylic primer of a corresponding color ~~couleur~~ and subsequently dried. The top coat is applied by brush in cross way fashion to obtain a suede effect, or it can be applied by roller, while subsequently a tool is used comprising a flat side provided with stiff parallel projecting fibers ~~fibres~~ such as synthetic grass fibers ~~fibres~~, which are dragged over the fresh paint layer to obtain a linen effect.

After paragraph [0026], please add the following:
